MEMORANDUM

RE: Use of GPS devices during Pennants and District Competitions.

During the playing of the last round of Pennants the issue of the use of GPS devices which registered readings for wind velocity was raised in relation to the Brand name **Sure Shot**.

As there was no absolute information available at the time about the device a decision was made by the starter, after perusing the Conditions of Play, that these devices should not be used on this occasion.

Further investigation, through the manufactures, after the event revealed that this model of GPS does not an active wind measuring facility and is therefore able to legally be used in all District Competitions.

Please notify all players of this information.

Yours faithfully,

Marg White

Captain.
